Introduction

Welcome to the Baker Tilly Malta Transparency Report for 2022.

During the year, our firm continued to offer a full range of audit, accounting, tax and advisory services to local and international corporate and private clients.

Baker Tilly Malta is an independent member of Baker Tilly International, currently ranking as the 9th largest accounting network worldwide.

As part of the culture of Baker Tilly International, we are driven by an authentic, collaborative ambition to grow the best future. At Baker Tilly we speak out on tomorrow's issues, today. We are connected by purpose and create change for good. The projects from around the network demonstrate the impact we make in our communities and goes to the very heart of being Baker Tilly.

Message from the Managing Partner

Message from the Managing Partner

The 2022 year has again continued to be characterised by a certain element of uncertainty, because even though as COVID-19 was being controlled and restrictions started being eased, we unfortunately saw the onset of the Russia - Ukraine war. This war triggered widespread economic effects on the Russian and World economies which of course resulted in a number of uncertainties towards the largest economies.

During 2022, the firm officially reopened its offices after the COVID pandemic and staff started to attend the office in person, however, we still offered the option of continuing to work remotely for whoever wanted to. Our staff have more than proven their commitment to the firm and our clients during this trying period.

Of course, our main priorities remain those of protecting our staff whilst continuing to support our clients, and therefore also ensuring business continuity. The COVID period has confirmed that through the investment in our existing technology capabilities and online collaboration tools, we have been able to continue to provide our services also remotely.

We are pleased to note that Baker Tilly Malta has had another successful year, and we still managed to expand further our clients' portfolio, resulting in another year of growth.

This Transparency Report is being published in accordance with the requirements for audit companies performing audits of financial statements of public interest entities.

This Transparency Report contains details and information regarding the policies and procedures in place within our firm, our audit methodology, the Public Listed Entities for which we carried out statutory audits, the independence practices which we follow, as well as the continuing training policies and programmes for our staff, which together enable and ensure the effective functioning of the internal quality control system of the firm.

Finally, the financial information relating to the firm and the partners is also included within the Transparency Report.

A handwritten signature in blue ink, appearing to read 'Donald Sant', is written over a faint circular watermark or background.

Donald Sant
Managing Partner
Baker Tilly Malta

**About
Baker Tilly Malta**

About Baker Tilly Malta

Baker Tilly Malta is a full-service accounting and advisory firm that offers industry specialised services in assurance, tax and advisory.

With a focus on serving local and international corporate clients, entrepreneurs, family-owned businesses, not-for-profits and public sector organizations, we help our clients plan for the future.

Baker Tilly Malta is steered by the managing partner, who is responsible for the general strategy and continuous maintenance of core competences within the firm, whilst other day-to-day management functions are carried out by the responsible partners, principal and managers.

**About
Baker Tilly
International**

About Baker Tilly International

Description and Legal Structure

Baker Tilly International is one of the world's leading networks of independently owned and managed accountancy and business advisory firms united by a commitment to provide exceptional client service.

Baker Tilly Malta is an independent member of Baker Tilly International Limited, which is a company limited by guarantee registered in England and Wales. It is owned by its members, all of which hold an equal interest in the legal entity. The members, in the Annual General Meeting, are responsible for appointing the board of directors, approving the company's strategy and other matters such as making changes to the company's constitution.

Baker Tilly International does not itself provide professional services, advice or opinions to clients but acts as a member services organisation operating from its Global Office in London. Client services are delivered regionally and nationally by a network of over 120 independent members worldwide.

Each member is a separate and independent legal entity. Each member is locally owned, operated and managed and is responsible for its own actions. No single member is responsible for the services or actions of another.

Although many members operate under the Baker Tilly name, there is no common ownership amongst the members.

Management and Governance

Baker Tilly International operates with a board of directors consisting of the Chief Executive Officer (CEO), and directors drawn from independent members around the world. The board of directors appoints the CEO. It also formulates the strategy for Baker Tilly International and approves the policies and procedures to govern and manage the network. On the recommendation of the CEO and regional advisory councils, the board is responsible for admitting new members and, on occasion, terminating membership.

The network operates geographically through four regions - North America; Latin America; Europe, Middle East and Africa; and Asia Pacific. Each region has a chairperson who chairs an advisory council made up of partners from members in that region. The chairperson's role includes the co-ordination and development of business between members, the recruitment of new members as necessary and the implementation of the regional strategy.

At a management level, the network is coordinated by the CEO. The CEO is responsible to the board and ultimately to the members for all matters relating to the management and leadership of the network.

The CEO is supported by a team at Global Office which supports members worldwide. Support includes international marketing and business development initiatives, technical development of the global audit tool and the co-ordination of a global secondment programme.

Quality Assurance

Baker Tilly International's members are expected to conduct all aspects of their business to the highest professional standards, to maintain integrity and to keep in good standing in their local business community.

They are required to comply with all national standards applicable to all aspects of their work. These include auditing, independence and any other standards issued in a member's country which impact on their work. They are also expected to comply with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA) and to carry out audits to standards that are at least compliant with International Standards on Auditing (ISAs) issued by the International Auditing and Assurance Standards Board (IAASB).

Members are also required to comply with IAASB's International Standard on Quality Management (ISQM) 1. This requires that each member establishes a system of internal quality control designed to provide it with reasonable assurance that the member and its personnel comply with professional standards and regulatory and legal requirements, and that reports issued by the member or engagement partner are appropriate in the circumstances.

Regular quality assurance reviews of all members are carried out by Baker Tilly International, with members typically subject to a review at least once every three years.

The Quality Assurance Unit within the Malta Accountancy Board also carry out periodic reviews with the scope of reviewing the quality control system of the firm together with the compliance testing of procedures and files to assess its adequate functioning. The last full review carried out by the Quality Assurance Unit was held during 2014, as a later one which had started to be conducted during 2020, had to be stopped because of the onset of COVID.

Independence

Although Baker Tilly International is a network, it is for each member to determine its position under the ethical codes which govern its work. Each member identifies those other members of the Baker Tilly International network that must be considered in respect of independence.

Each member complies with their local code of ethics. Where no local code exists or where the local code is significantly less comprehensive than the International Code of Ethics for Professional Accountants (Code) members are expected to comply with the Code.

All members are required to include in their audit process a procedure that requires consideration of whether there are threats to independence resulting from work done for the client and any of its related companies by themselves or any other members of Baker Tilly International. This includes discussion with the client of circumstances where any such threats may arise.

Baker Tilly International provides an Independence Database to assist members in complying with this requirement. All members are required to maintain information on the Independence Database.

The Independence Database:

- allows members to check for possible conflicts as part of their internal client acceptance procedures
- identifies all listed audit clients to be included on the Restricted Entity List

The Independence Database includes details of all clients which are members of a listed group for which any member provides any service to any company within the listed group.

Details are recorded for all instances where members provide audit services to listed entities. This information is then used to create the Restricted Entity List which shows all the listed audit clients for whom members act as auditors. Member firms should not hold a financial interest (for example, an investment) in any entity on the Restricted Entity List and should not provide non-audit services to those entity's without first consulting the audit team.

Audit Firm and Audit Fee Information in respect of EU Members

As at 31 December 2022, the following independent member firms of the Baker Tilly International network provided statutory audit services in the EU:

- Slovakia – TPA Audit s.r.o. (see Appendix 1)
- Spain – Baker Tilly Iberia (see Appendix 1)
- Sweden – Baker Tilly Sweden (see Appendix 1)

Total Statutory Audit Fees for EU Members which provide Statutory Audit Services

The total statutory audit fees for EU members for the period is approximately €197 million.

Global Audit Methodology

Global Audit Methodology

Our global audit methodology provides a consistent, high quality approach. The audit methodology, Global Focus, is our 'audit language' which ensures a common understanding of the audit approach and procedures. Global Focus is underpinned by advanced technology which uses intelligent software and risk registers to highlight the areas of greatest risk and provides efficient documentation tools for an electronic approach to statutory audit.

Working Across Borders

Global Focus provides a shared:

- Audit engagement approach for our network by establishing expectations for audit quality
- Understanding of the audit procedures performed

This allows for:

- Consistent and high-quality audit, tailored to the profile of each engagement
- Integrated quality assurance procedures, compliant with the International Standards of Auditing
- Efficiency and a streamlined process, saving time, helping meet deadlines and allowing us to focus on providing our clients with insights into their business
- The built-in group audit approach results in a controlled and robust process
- The risk-based approach means that we can highlight inefficiencies in our client's processes and make recommendations for improvement
- Helps assure global consistency and quality with comprehensive standardised training and the capacity for central quality assurance review.

Four Steps to Confidence and Compliance

We apply a four-step process which helps us understand the business and deliver the best results quickly.

1. Planning

Our experts undertake activities to understand the business, including operation and internal control environment of our clients. This allows us to develop an audit plan that fits the clients' profile and results in an audit strategy that is tailored to them.

2. Risk Assessment

We assess clients' financial reporting risks and identify business-critical issues. We review and test internal controls to enhance our audit procedure and where necessary make recommendations for improvement.

3. Risk Response

We design our audit procedures to respond to the assessed audit risks identified.

4. Completing and Reporting

We use a range of checks to ensure accuracy to develop the results into insights that are action based and realistic, allowing you to enhance your operations.

Technology

Intelligent software:

Using a recognised audit software platform, Global Focus introduces efficient documentation tools. The software assists the auditor to align the documentation of thought processes and risk assessments throughout the audit to automate compliance with audit requirements.

Risk registers:

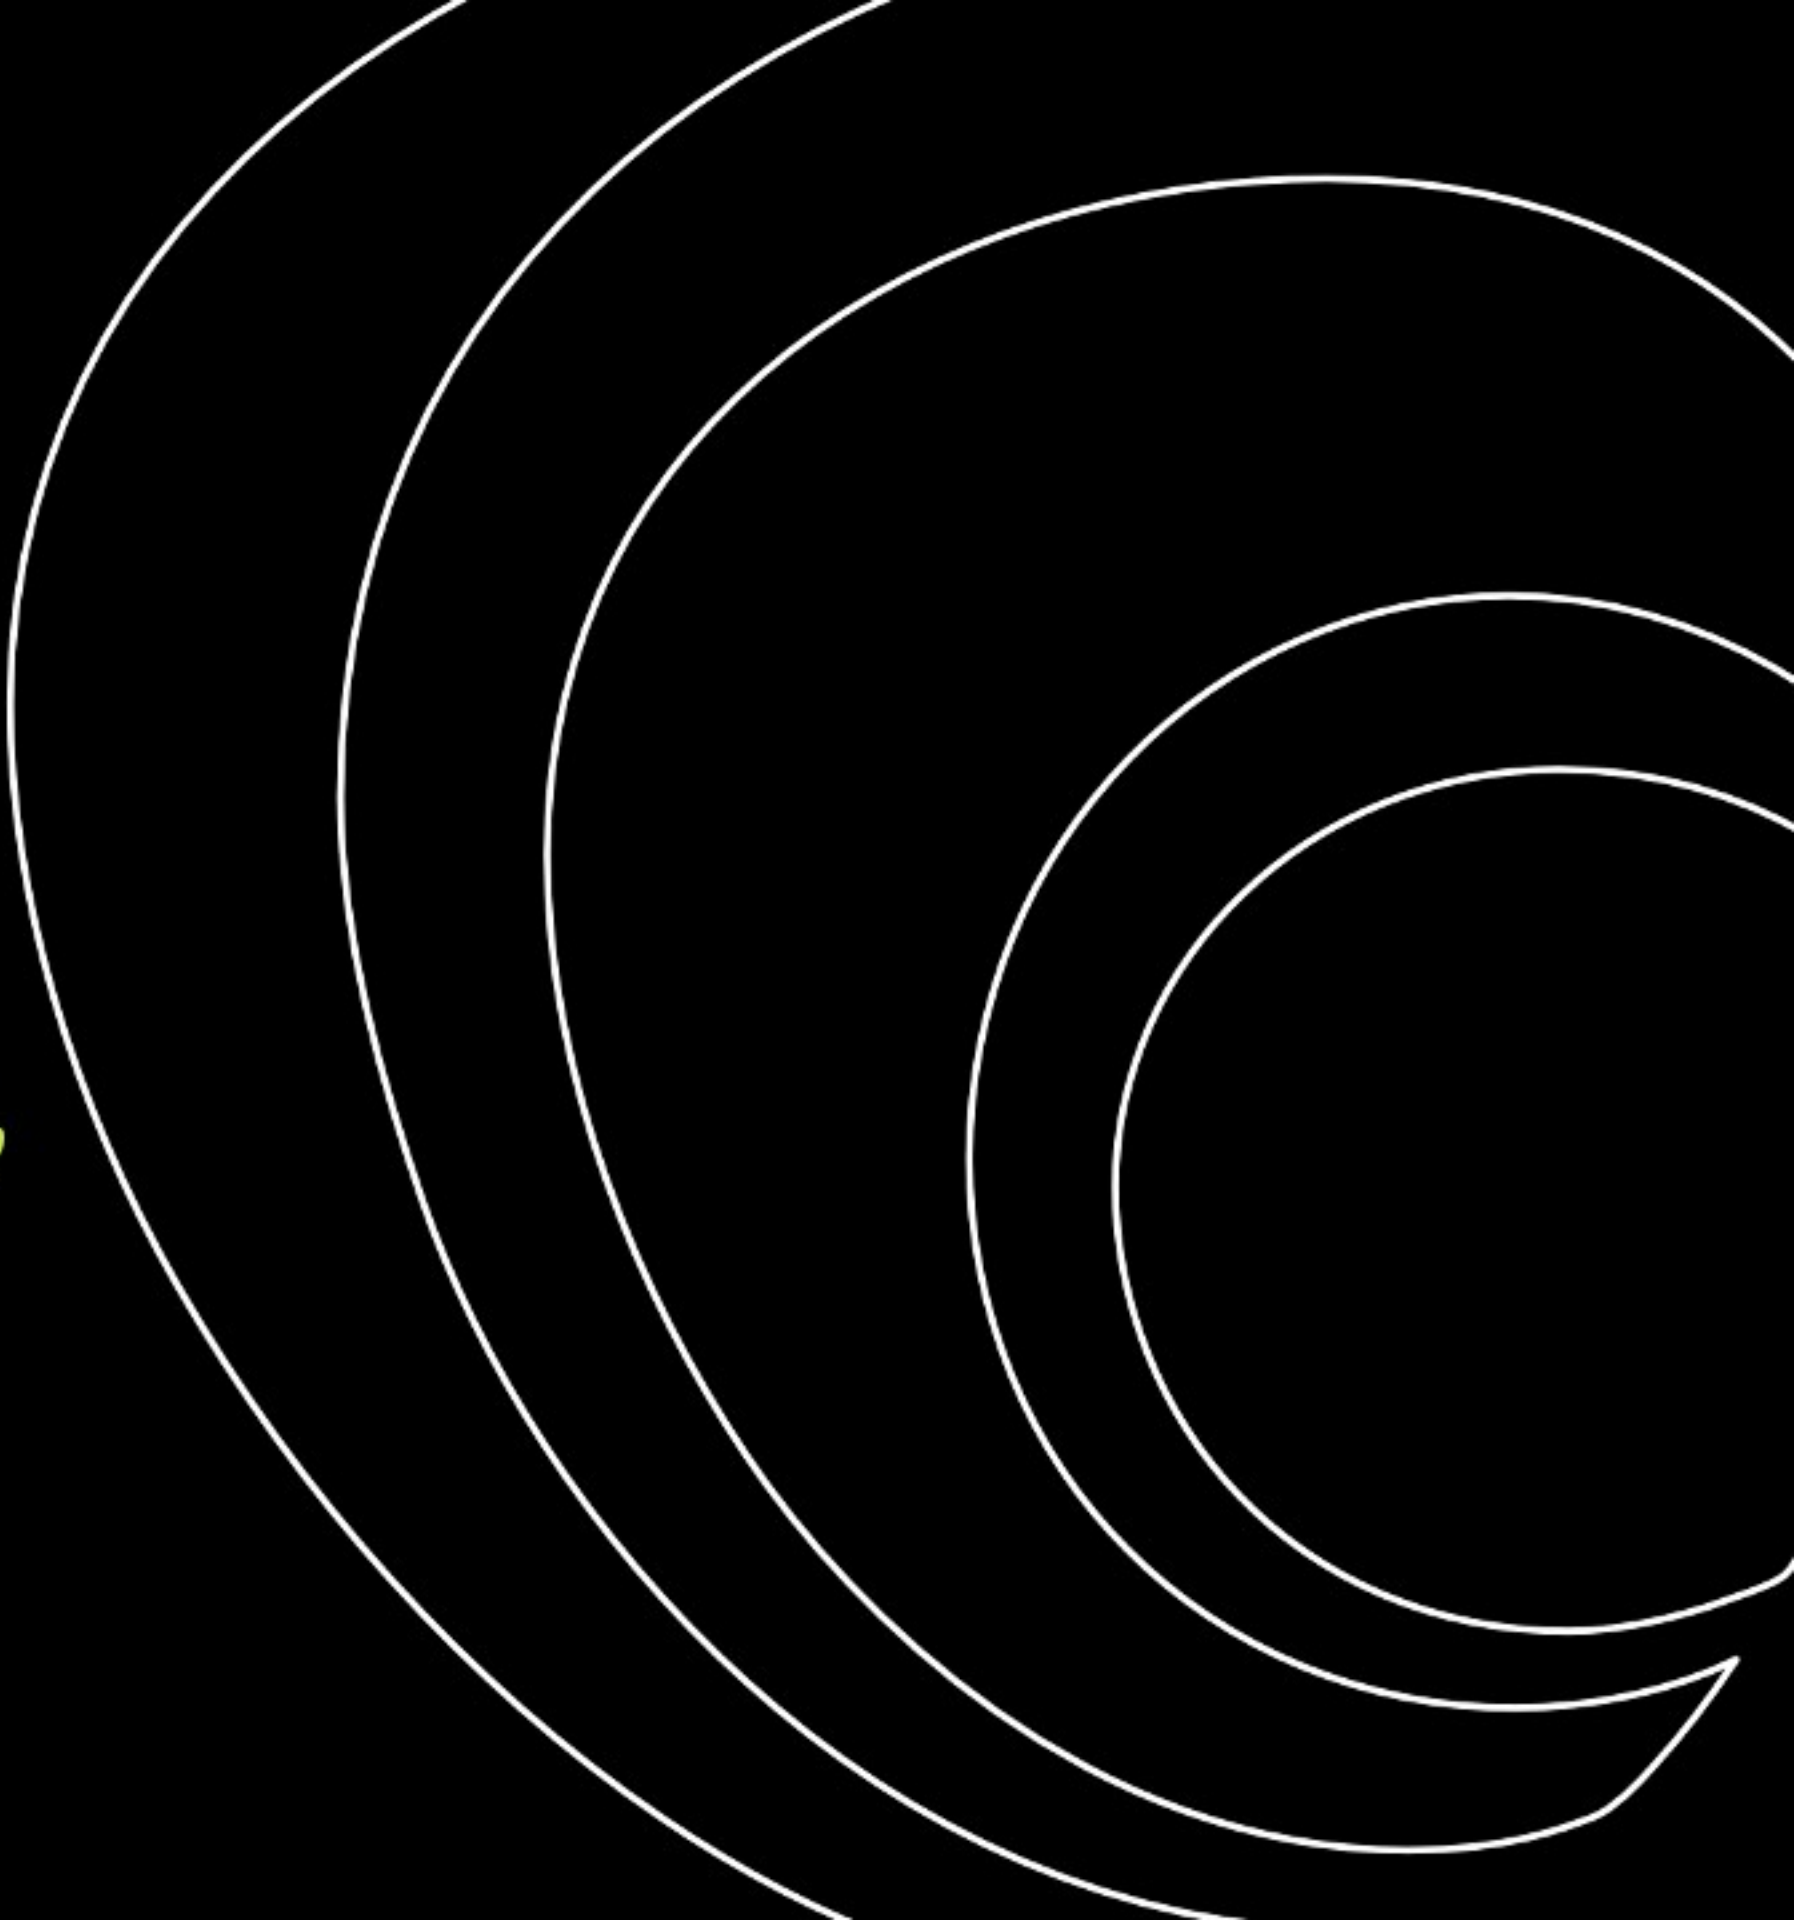

The software enables us to compile risk registers tailored to your business, together with mitigating controls and reportable items.

Remote access to audit files in real time:

Software tools enable audit team members to work on one live version of the audit file, allowing teams to work on the audit wherever they are in the world and have access to the same information.

Easily understood visual presentation:

Visual diagrams can be generated from the audit planning documentation to show material financial statement areas, the associated risks and the mitigating controls or control deficiencies.

**Client Engagement,
Acceptance and
Continuance**

Client Engagement, Acceptance and Continuance

Baker Tilly International allows each member firm to implement their own internal client engagement, acceptance and continuance policies and procedures within a global framework of principles set by the network.

Baker Tilly Malta's client engagement, acceptance and continuance policies set out the policies and procedures which will determine our decision of whether to accept a new client or a new engagement, or to continue with an existing client or engagement. These comprehensive policies and processes comply with the applicable Anti-Money Laundering Laws, International Standards on Auditing and the IFAC Code of Ethics for Professional Accountants as issued by IESBA.

The client engagement procedures are completed prior to agreeing the terms of an engagement and, prior to performing any other significant activities that would have been performed if the client or engagement was formally accepted or continued.

The firm utilises specialised KYC software to assist it with its client engagement, acceptance and continuance policies, which software is based on a risk-based approach which reflects Baker Tilly's risk appetite. Embedded risk graded questionnaires set the prospective or existing client's risk profile and indicates the overall risk grade. The overall risk grade will determine the acceptance or decline of a client or engagement.

The objectives of the firm's engagement, acceptance and continuance policies are the following:

- Anti-Money Laundering procedures have been sufficiently and effectively followed as per the firm's AML manual
- Ensure that Baker Tilly's independence is safeguarded
- Ensure that any conflicts of interest have been identified and dealt with
- Baker Tilly has the professional competence to proceed with the client and relevant engagement
- Decline any clients with overall risk higher than the Baker Tilly's risk appetite
- Ensure no limitation on scope prior to audit engagement acceptance exists

Independence Database

Baker Tilly International provides an Independence Database to assist members in confirming independence. All members are required to maintain information on the Independence Database.

The Independence Database is designed to:

- allow members to check for possible conflicts as part of their internal client acceptance procedures
- permit Baker Tilly International to identify all listed audit clients to be included on the Restricted Entity List

The Independence Database includes details of all clients which are members of a listed group for which any member provides any service to any company within the listed group.

Details are recorded for all instances where members provide audit services to listed entities. This information is then used to create the Restricted Entity List which shows all the listed audit clients for whom members act as auditors. Member firms should not hold a financial interest (for example, an investment) in any entity on the Restricted Entity List.

Public Interest Entities Audited during Latest Financial Year

The Accountancy Profession Act, Cap 281 defines public interest entities as those:

- a) whose transferable securities are admitted to trading on a regulated market of any EU member state.
- b) credit institutions.
- c) insurance undertakings; and
- d) any other entities as may be prescribed by the Accountancy Board.

During the preceding financial year 2022, Baker Tilly Malta issued one statutory audit report for entities that fall within the definition of Public Interest Entities. This was in respect of:

Mercury Projects Finance Plc (C 89117) – 31 December 2021, date of audit report 21 April 2022

The Accountancy Board may, from time-to-time, designate other entities as Public Interest Entities.

Confirmation of Independence

Confirmation of Independence

Our quality assurance system requires that each partner, senior or staff maintains objectivity and independence on each assignment engaged. We have procedures in place to ensure that each personnel before the assignment formally commences discloses any matter that could compromise independence, whether it is personal, financial or other interest.

The firm expects all partners and staff to maintain current knowledge of the provisions contained within the Code of Ethics for warrant holders. This requires all partners and staff to assume personal responsibility for the periodic review of the Code of Ethics contents.

All partners and staff are required to be aware of and understand the Code of Ethics and any additional local requirements. The firm's independence policy requires all members of the assurance team to meet these provisions for all assurance engagements and reports issued. Accordingly, partners and staff are required to provide the firm annual written confirmation that they understand and have complied with the Code of Ethics and the firm's independence policies. Furthermore, all partners and staff are required to review their specific circumstances for any independence threats, and to promptly inform the engagement partner of any such threats identified. An internal review of independence compliance is conducted annually.

Each engagement partner shall provide the firm with relevant information about their client engagements, including the scope of services, to enable the firm to evaluate the overall impact, if any, on independence requirements. In order to facilitate this:

- Each partner or staff member assigned to an assurance engagement shall confirm to the engagement partner that he or she is independent of the client and engagement or notify the engagement partner of any threats to independence so that appropriate safeguards can be applied.
- Partners and staff must notify the engagement partner if, to their knowledge, any member of the assurance team has, during the disclosure period, provided any service that would be prohibited under the Code of Ethics or other local requirement, which could result in the firm being unable to complete an assurance engagement.

The partners and staff must follow the Code of Ethics and any additional local requirements, regarding mandatory rotation of engagement partners, the QCR, and any other partners on the engagement team who make key decisions or judgments on significant matters with respect to all audit engagements for public interest entities.

Our Staff

Our Staff

At Baker Tilly Malta, our staff are the firm's key driver. We seek to attract talented individuals and empower them with the best available tools to enhance their personal and professional capabilities with a view to delivering a quality service to our clients.

The firm offers its staff an excellent work-life balance, which in turn leads to an excellent working environment and ultimately transcends to the services we offer to our clients.

Baker Tilly Malta understands that in the ever-changing business environment, one cannot remain still. In fact, the firm promotes a culture of continuous improvement, inclusion and collaboration with a view to bettering oneself, and which ultimately is reflected in the service that we give to our clients.

Continuing Professional Education

All the firm's auditors and senior staff are required to update and deepen their technical and professional knowledge through various trainings offered by the firm itself, as well as trainings organized outside the firm by accredited professional organizations.

Continuing education is a key policy of the firm, as it is an important tool for developing knowledge, which is essential in maintaining and improving the quality of our services. The firm has multiple educational resources at its disposal, such as resources from Baker Tilly International, including technical training (IFRS, IAS, ISA, professional rules, taxation, IT), management and other skills, business, economics and industry specific courses.

All staff are required to attend courses or trainings on International Financial Reporting Standards, fiscal legislation and applicable trade regulations. Annual training updates in the field of International Standards on Auditing and International Standards on Accounting and Financial Reporting are encouraged for all professional audit staff.

The firm has a continuing professional education monitoring system that discloses the minimum number of CPE hours that the firm's qualified staff are required to comply with as referred in Directive 1 Accountancy Profession (Continued Professional Education).

Corporate Social Responsibility

Corporate Social Responsibility

Corporate Social Responsibility defines who we are. At Baker Tilly Malta we take corporate social responsibilities at heart with a view to improving the quality of life of the people around us and that of the community at large.

This culture of social responsibility permeates to all the strata of the firm, including all the staff. Staff make a monthly contribution out of their salary which is then more than doubled by the firm and used to make donations for good causes. During 2022, the firm made donations to Dar Bjorn, Dar Fra Diegu and St. Peter Foundation amongst others. Apart from the above, various other donations are also made on an ad hoc basis.

The firm moreover encourage the staff to participate in voluntary activities as much as possible, but because of COVID, these have somewhat been hampered in these last couple of years.

Finally, the firm also takes the opportunity of carrying out pro-bono professional services to certain charitable and voluntary organisations.

**Financial
Information**

Financial Information

Personnel

During the year ending 31 December 2022, the average number of personnel employed by Baker Tilly Malta amounted to 20.

Revenue

Below we present the firm's revenues for the year ended 31 December 2022 segmented by category as required by Article 18(k) of the Accountancy Profession Act (Cap. 281).

Service	Revenue (€)
Statutory audit (PIEs or PIE subsidiaries)	6,000
Statutory audit (non-PIEs or non-PIE subsidiaries)	1,153,758
Non-audit services (audited clients)	202,807
Non-audit services (other entities)	167,122
Total	1,529,687

Partner Compensation

Partner Compensation

The partners do not have any predetermined level of remuneration. They are entitled to their share of the firm's total profits which are allocated according to the partners' respective equity interest.

None of the partners are remunerated based on fees generated by a particular service or group of services, or by a particular client or group of clients.
